UIU EEE Embedded Systems Lab Enables Real-time Learning and Innovation!

UIU has launched a new embedded systems lab to ensure students are industry-ready. Each student has a personal setup with a signal generator, oscilloscope, and power supply, allowing them to conduct hands-on experiments while simultaneously learning theory. This innovative approach provides a practical, real-time learning experience, setting a new standard for engineering education.

Transform Health Systems with AI at the Harvard HSIL Hackathon 2026

UIU, the official Bangladesh Hub for the Harvard HSIL Hackathon, invites innovators to build high-value health systems using AI. This event brings together students, clinicians, engineers, and entrepreneurs to design and pitch technology-powered solutions. Global winners will participate in a Venture Building Program at Harvard. Registration is open to all Bangladeshi citizens and residents and closes on January 30, 2026. [Read More](#)

The poster is for the 7th Annual Hackathon organized by the Harvard T.H. Chan School of Public Health Innovation Lab. It features a green header with the school's logo and name. Below this, the title "Building High-Value Health Systems: Leveraging AI" is displayed, followed by the call to action "Join us for the 7th Annual Hackathon!". The main text describes the hackathon's focus on leveraging AI to solve health challenges. To the right, there are two small illustrations: one showing a person at a desk with a magnifying glass over a map, and another showing two people interacting with a circular interface. Below this section, the "When?" and "Where?" details are provided. The "When?" section includes a calendar icon and the date "April 10-11, 2026". The "Where?" section lists global locations: Beijing, Bogotá, Boston, Buenos Aires, Istanbul, London, Monterrey, Santiago de Chile, São Paulo, Singapore, Toronto, and more. Social media icons for Instagram and LinkedIn are present, along with the handle "@harvardhsil". At the bottom, a horizontal row of logos from various partner institutions is shown, including PATH, MASTERS, Dr. Sanjeev Singh, KOC UNIVERSITESI, MIND, YODH, CeCan, iHC, INNOVA, FGV EAESP, CENTRO DE ESTUDOS, SIIAM, UNITED, KING'S COLLEGE LONDON, KUNMING, UNIVERSIDAD DEL ROSARIO, Escuela de Medicina y Ciencias de la Salud, VIRIIC, NUST, UNIVERSITY OF TORONTO, UNIVERSITY OF CAMBRIDGE, SWISS MEDICAL, Dalla Lana School of Public Health, and POLITECNICO MILANO 1863.

IIUM Delegation Visits UIU to Explore Collaboration

Distinguished faculty members from International Islamic University Malaysia (IIUM), including the Dean of Engineering, visited UIU to discuss opportunities for academic and research collaboration. The meeting included senior faculty and management from UIU, laying the groundwork for a future partnership. Both universities aim to sign an MoU soon to facilitate research collaboration, faculty and student exchange programs, and special online courses.
